(6×2=12 weightage)

Part C (Essay Type Questions)

*Answer any **two** questions.*

Weight 5 each.

19. Discuss the effect of cost of debt, cost of equity and overall cost of capital in different capital structure theories.

20. Sony corporation has annual sales Rs.500000 and is currently extending 30 days credit. The company wants to pursue a more liberal policy to improve sales. The following information is available.

Credit policy	Average collection period	Annual Sales (Rs)
1	45 days	560000
2	60 days	600000
3	75 days	620000
4	90 days	630000

The average collection period is now 30 days.

Variable cost 80% of sales and fixed cost Rs.60000 p.a

Required rate of return (pre-tax) 20%

Assume 360 days in a year, determine which policy should the company adopt?

21. *P Ltd. is considering investment proposals A and B. Project A has a capital outlay of Rs. 20 lakhs while project B needs initial investment of Rs. 22 lakhs. The company expects cash inflows from the projects as given below.*

Year	Project A	Project B
1	5,00,000	6,00,000
2	6,00,000	7,00,000
3	8,00,000	8,00,000
4	10,00,000	9,00,000
5	5,00,000	10,00,000

The overall cost of capital of the company has been worked out at 12%. Assuming risk premium rates of 3% and 5% for project A and B respectively, determine the project to be selected.

22. Describe the various ratios that are likely to help the management of a manufacturing unit forming an opinion on the solvency position of business.

(2×5=10 weightage)
